

## REMARKS

As requested by the Examiner, the preamble to Claim 1 has been reworded. The term "highly pure" has been changed to "pure".

In both claims 1 and 4, the phrase "suitable crystallization solvent" has been changed to "crystallization solvent". The ambiguous "such as" term has been eliminated and a group is set up for specific solvent choices of a hydrocarbon or an ether. This has been done after discussion with Examiner.

Since Claims 1 and 4 should now be proper, the dependant claims 2-6 objected to should also now be proper.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Jay Akhave", written over the typed name.
